The Best Politician of the 21st century turns 75! He is a dear person to the people of Israel. Yesterday, Donald Trump turned 75. Never in modern history has Israel had such a friend and ally as well. There has never been a prominent politician in the last hundred years who has done so much for the Jewish people as a nation. Where did such a righteous person come from - rationality doesn't explain.

1. If he only recognized Jerusalem as the capital of Israel, but did not move the embassy there, that was enough for us.
2. If he only moved the embassy to Jerusalem, but didn't recognize sovereignty over the Golan, that was enough for us.
3. If only he recognized sovereignty over the Golan, but wasn't the first president of America to visit the Kotel in Israel that would have been enough for us.
4. If only he was the first president of America to visit the Kotel, but didn't curb the nuclear program that Iran started, it would have been enough for us.
5. If only he could curb Iran's nuclear program, but didn't always support Israel's unconditional right to defend itself and that would have been enough for us.
6. If only he supported Israel's unconditional right to defend itself, but didn't dramatically increase the military help for our country, it would be enough for us.
7. If only he sharply the military aid to our country, but didn't refuse to support the principle of "two state for two people's", as that is unprofitable for Israel. It would have been enough for us.
8. If only he refused to support the "two state for two people'", as it presented many disadvantages to Israel. He did not close the PLO office in the United States. That would have been enough for us.

9. If only he had closed the PLO US Office, but didn't stop funding the PA. He generally struck out the Palestinian issue from the main international agenda day, that would have been enough for us.

10. If only he would have stopped funding the PA and generally deleted the Palestinian problem from the main international agenda, but didn't withdraw the United States from UNESCO and from the UN Human Affairs Council, that would have been enough for us.

11. It seems that number ten and number 11 are the same

12. If only he helped Israel establish friendly relations with a number of Arab leading countries, but didn't state that Israeli settlements beyond the green line aren't an obstacle to peace. That would have been enough for us.

13. If only he had declared that the Israeli settlements where the green line isn't an obstacle to peace, but wasn't always positive about new construction in what is known as the "territories". That would have been enough for us.

14. If he was always positive about new construction in the "territories", but didn't give a hand in an unjust court in the Hague and forbade his judges from entering the USA. That would have been enough for us.

Dear Donald, 75 is the heyday of Jewish Patriarchs and Prophets to whom, you are certainly welcome reckon! Moses at age 80 got to Egypt to fulfill the main mission in your life. So you still have time ahead and the mission must be completed to the end. We wish you the best of health and for you to live until 120! Prophet of Modern Israel.
